The Conning Tower

Mary Phagan Speaks.

[Mary White Ovington in the New Republic.] You care a lot about me, you men of Georgia, now that I am dead. You have spent thousands of dollars trying to learn who mutilated

my body. You have filled the columns of your newspapers with the story of

my wrong. You have broken into a prison and murdered a man that I might be avenged.

But why did you not care for me when I was alive? I was a child, but you shut me out of the daylight.

You held me within four walls watching a machine that crashed through the air,

Endlessly watching a knife as it cut a piece of wood. Noise fills the place-noise, dust and the smell of oil.

I wish some of the thousands of dollars that you spent on the trial might have kept me in school, A real school, the kind you build for the rich.

I worked through the hot August days When you were bossing the girls, or shooting birds, Or lounging in doorways cursing the nigger; And you never paid me enough to buy a pretty dress. You sometimes spoke coarsely to me when I went to and from my

Yes, you did, and I had to pretend I liked it. Why did you despise me living and yet love me so now? I think I know. It is like what the preacher told me about Christ: People hated Him when He was alive, But when He was dead they killed man after man for His sake.

But the best thing thus far written on the Frank case is Don Marquis's "Georgia Bitterly Resents Any Interference in Her Affairs on the Part of Outsiders," in last Monday's Evening Sun.

Charity's greatest by-product, it always seems to us about this time of year, is the number of photographs printed of society
